

NEWS FROM ENEXIO SERVICE GmbH & AERO SOLUTIONS S.A.S.

05/17/2022

As already known, Aero Solutions S.A.S. is a member of DEUBIS Group since June 2020, while ENEXIO Service GmbH was added in October 2021. As a holding company, DEUBIS GmbH, based in Essen, brings together various specialist companies in the areas of painting and scaffolding, building repairs, surface technology, high-pressure water jets and cooling tower plant construction.

We are pleased to announce that ENEXIO Service GmbH and the German branch of Aero Solutions S.A.S. will go together under the umbrella of ENEXIO Service GmbH starting July 01, 2022, in order to bundle the technical competence and performance of both companies to be able to offer you technically even better and more efficient solutions in the future.

The French part of Aero Solutions SAS will continue to operate independently in France and, as a reliable and competent partner, will serve French industrial customers with services of the usual quality. The engineering team there is supported by the new and expanded engineering department of ENEXIO Service GmbH from Germany on special issues.

The new ENEXIO Service GmbH with headquarters in Bochum and a branch office in Leipzig is active as a subsidiary of the DEUBIS Group in cooling tower plant construction and plant service. It offers a wide range of products for everything to do with industrial cooling technology, from project planning and new construction to inspection, maintenance, and dismantling. The focus is on cooling towers of all types and sizes. In addition, ENEXIO Italy srl in Mornago / Varese belongs to ENEXIO Service GmbH as a subsidiary since October 2021 and also offers various products of cooling technology as well as wastewater treatment from own production.

We would like to thank all customers, suppliers, and business friends for your support so far and your interest in the products and services of Aero Solutions S.A.S.

We appreciate if you remain loyal to us in the future and we cordially invite you to consider the new ENEXIO Service GmbH, but also the DEUBIS Group, for your future projects.
